TRADERS IN FULL CONTROL OF NEW YORK EXCHANGE MARKET.

No Foreign Bidding and Outsiders on This Side Are Cantious-Local Markets Quiet.

At New York, yesterday, money on call closed easy at 3@31/2 per cent.; last loan,

31/2: closed, 3@31/2 per cent. Prime mercantile paper, 566 per cent. Sterling exchange was firm, with actual business in bankers' bill at \$4.87% @4.88 for demand and \$4.86%@4.87 for sixty days; posted rates, \$4.87\\@4.88 and \$4.88\\@4.89; commercial bills, \$4.86.

Bar silver, 68%e per ounce; silver certificates, 68%@69c. At London, bar silver closed at 31 7-16d per ounce.

Total sales of stocks were 172,425 shares, including: American Tobacco, 28,000; Burlington, 16,200; Distilling, 8,900; Louisville & Nashville, 14,200; Rock Island, 12,700; St Paul, 22,600; General Electric, 5,600; American Sugar, 15,600; Tennessee Coal and Iron,

The traders had yesterday's limited market entirely to themselves on New York 'Change, the financial community at large holding aloof on account of various uncertainties in the situation that are likely or are considered to be likely to unfavorably affect the market. The London market for Americans was flat, but at the local opening sales for foreign account were resumed, and this caused a disappearance of the improve ment that had been in progress at the clos iness on Saturday. In the early dealings, Sugar displayed especial strength and gained I per cent., while in several other properties, sharp fractional advances were recorded. The reign operations referred to influenced a eneral reactionary movement, in which some severe losses occurred. The trading element expended some energy on the bear side, using as a text the unfavor-

able commercial situation as reflected by sharp discrimination in mercantile paper, the Cuban discussion at Washington and a stiffening tendency in the exchange market. The granger stocks were especially affected by the fallure of the directors of the Rock Island to increase the rate of quarterly divi-dend. In the industrials, American Tobacco received support from the pool, weakness in Chicago Gas was attributed to the probable result of the investigation by Attorney-general Moloney of the details of the reorganization plan, and General Electric was attacked, on general principles, presumably In the late dealings, the bear leaders made an effective drive in various stocks, paying special attention to the grangers, Louis-ville & Nashville, New Jersey Central, Kan-sas & Texas preferred, and some of the in-dustrial shares. Renewed liquidation was discernible in Tennessee Coal and resulted in a concersion of 1% per cent. As is usual in a sluggish market, weak spots were found in a number of the usually inactive shares. ng by houses with Washington connec tions was quite marked. The losses at the low level were 1@2 points in the prominen ares, with Burlington and New Jersey conspicuous shares, the extreme decline was ter in one or two cases. The trading in forenoon was apathetic, but in the late session the market became animated at the expense of values. The pressure to sell abated in the last half hour, and a covering movement by shorts, in which Tobacco figured for a point and other shares to a fractional extent occurred. The closing was steady, at the improvements noted, but with sharp net losses general as a result of the

Business in the bonds was restricted and the market developed heaviness in sympathy with the stock speculation. Kansas & Texas seconds yielded 2 per cent. Other act losses of consequence were in Chesapeake & Ohio, 41/2; Northern Pacific firsts, Northern Pacific thirds, Union Pacific, Denver & Gulf firsts, Cordage first trust receipts and Kansas & Texas firsts, 1 per cent. The aggregate dealings were \$773,000.

Government bonds were irregular within a narrow range on dealings of \$14,000. The following table, prepared by L. W. Louis, Room 13, Board of Trade, shows the

WHEAT CLOSED WEAK AND HEAVY

Other Markets Were Lower in Sympathy, Corn and Oats Losing Frac-

CHICAGO, March 23 .- As a result of break in oats and provisions and a failure of the export movement in grain, wheat to day closed heavy at the bottom price of the day. Compared with Saturday night, it shows a net loss of %c. Corn lost 4c, oats

There was a good trade in wheat within little unsettled, the tone early being stronger, after which a weaker feeling set in, and the close was easy at 1/20%c decline. The news at the start was of a character to encourage holders and induce buying. To start with, cables came quite strong, both English and continental, Liverpool showing a gain of 1/20%d. The world's shipments were reported smaller than last week, at 5.424,000 bushels, and this imparted a good deal of strength to the situation, and private Liverpool advices stated that the same started the advance there. There was a decrease on ocean passage of 480,000 bushels, which was also a bull factor, and the visible supply on this side showed a larger decrease than figurd on, at 785,000 bushels, and likewise had a stimulating tendency. At the advance there was free and active selling by the large professionals, and prices finally yielded, the demand not being sufficient to absorb the same. The market was further weakened by moderate exports. The weather, too, cut some figure, the cold wave falling to materialize, and, on the contrary, warmer conditions are indicated. Northwestern receipts were again larger than last week. The break in provisions and cats had some little effect on the market, and started longs to realizing, which increased as the session advanced. May opened %c higher at 63%c, sold between 62c and 63%c, closed easy at 62c.

The corn market was very dull and rather heavy, but the break was insignificant, taking into consideration the extreme weakness and the feeling easier. No. 2 cash, 26%c; May. 26%c; May. 26%c; July, 27%@27%c bid. Oats—Futures were lower and trading active. Spot dull and lower; No. 2 cash, 18%c bid; May, 19%c; July, 19%c asked. Rye lower to sell; No. 2 offered at 37c, bid 35c; east track, 36c bid. Barley steady. Corn meal, \$1.35@1.40. Flaxseed nominal at 83%c. Timothy seed, \$2.50@3.25. Hay unchanged; stock very scarce and firmly held; prairie, \$5@8; timothy, \$8.50@13 this side. Butter—Demand fair for all table grades. Eggs firm at 8%c for fresh. Whisky, \$1.22. Cotton ties and bagging unchanged. Pork lower; standard mess, \$9.12%; old, \$8.62%. Lard lower; choice, 4.90@4.95c. Bacon—Boxed shoulders, 5%c. Dry-salted meats—Boxed shoulders, 5%c. Dry-salted meats—Boxed shoulders, 5%c. absorb the same. The market was further into consideration the extreme weakn

of oats and the slumpy manner in which wheat acted after its early bulge. May opened unchanged at 29%c, sold sparingly at 29%c and closed at that price bid.

Oats were active, weaker and lower, with free general liquidation by longs and selling by local traders. Prices declined 1/20%c, and the close was tame at the battom. May by local traders. Prices declined 1/201/4c, and the close was tame at the bottom. May and July were the active months, and there was good buying of July and selling of May, which spread the difference from 1/4c at the close Saturday to 1/4c to-day. The buying was mainly by shorts and did not attract especial attention. The market opened steady, but weakened under realizing sales. May opened at 20%c, sold at 20%@20%c, declined to 19%c, and closed with that price bid, a drop of %c since Saturday. July ranged from 20%@20%c to 19%c, and rested with the latter price bid.

An unusually active speculative business was transacted in hog products, and the market in a general way greatly unsettled. The market opened rather firm, with moderate buying, mainly to provide for outside orders, and prices were higher temporarily, in sympathy with the hog market. The easiness in the grain markets, however, and considerable desire to unload by longs caused a decidedly weaker feeling. As prices declined there was considerable pressure to sell, especially by parties carrying property on especially by parties carrying property on "stop orders" and on narrow margins, which resulted in a marked decline on all the speculative articles. At inside figures the demand improved considerably, and purchases were fairly liberal and chiefly ordited to

were fairly liberal and chiefly credited to shorts. Prices, however, rallied slightly, as buyers were unwilling to follow any advance. The market closed steady at a small improvement on the inside figures, reached. CHICAGO, March 23 .- The wheat market to-day has been a disappointment. All indications early and late were for better prices. Cables were strong with light Black sea shipments. The decrease in the visible supply was over 700,000 bushels, 50 per cent. over the estimates. The cash demand was fair, about 50,000 bushels taken for interior mills. The early selling was done principally by the holders of privileges. About noon 400 there was a general scramble to sell and on the decline several long lines came out. As we look at the situation, wheat appears safe to buy and hold. It may sell off a lit-tle, but declines will be temporary for the near future. What it will be later on depends a great deal on the character of the weather. With not over 40 per cent. of the plowing done in the Red river valley, the season looks like a late one. Atlantic shipments in wheat and flour equal Corn opened higher with a few buying orders in the market, but little for sale. Trade was exceedingly light except when the market struck 29½c, at which price there was a good inquiry from shorts. Seliers were scattering.
Oats opened higher in sympathy with corn and wheat, but longs were free sellers and below 20c a great many stop orders were reached. Shorts were the only buyers. Provisions opened strong and higher with god outside buying. At the advance local packing houses began selling, also brokers, supposed for leading operators at Hot Springs. As prices fell off stop orders were reached. Considerable long stuff came out

during the session. Visible Supply of Grain. NEW YORK, March 23 .- The visible supply of grain Saturday, March 21, as compiled by the New York Produce Exchange. Sarah and John Rodgers, 37 Roe street, is as follows: Wheat, 61,348,000 bu, a decrease of 775,000 bu; corn, 15,852,000 bu, an increase of 966,000 bu; oats, 8,164,000 bu, an increase of 754,000 bu; rye, 1,518,000 bu, an increase of 51,000 bu; barley, 1,536,000 bu, a

NEW ASPHALT BIDDER

ITS FIGURES ARE THE LOWEST ON FOUR IMPROVEMENTS.

Fruin-Bambrick Company Uses Refined Trinidad Asphalt-The Contracts Held Up.

The Board of Works is now in deep water

on the asphalt question. Blds for the con-

struction of four streets were received yesterday. The board was not surprised to find a fourth bidder in the field, but that fact has caused it to hesitate somewhat in letting the contracts. The fourth concern, the Fruin-Bambrick Company, of St. Louis, was the lowest bidder in each case. It proposes to use "refined Trinidad asphalt." On account of the new bidder, consideration of the bids was postponed until to-morrow. The board is undecided as to whether the new company can do the work as well as the others, and whether its work will really comply with the specifications. The bid of the new company is \$6,929 lower than the lowest of the other companies on the total amount of work named. The saving is divided as follows: On Palmer street, \$815.76, or 33 cents a foot on each side; on New York street, \$2,924.60, or 35 cents a foot on each side; on East street, from Washington to Ohio street, \$1,019.70, or 45 cents a foot on each side; on East street, from Ohio to St. Clair, \$2,168.94, or 41 cents a foot on each side. For block pavement on Michigan street, from East to West street. For cement walks on Lexington averue from Frank to State street.

For brick pavement on Kentucky avenue, from Missouri street to River avenue.

The Postal and Conduits. The Board of Works has asked City Attorney Curtis to construe certain parts of the ordinance in regard to putting wires under ground. The Postal Telegraph Company has given the board an outline of where it wants to locate conduits and the board is not certain whether it has the power to grant the right or whether the matter must be embodied in a formal contract and approved by the Council.

Fire Cistern Contract. The Board of Works yesterday awarded the contract for building a fire cistern at Washington street and Senate avenue, and one at Illinois and Merrill streets, to R. P. Dunning, at \$275. The other bids were: A. Bruner, \$280; George W. McCray, \$315; C. S. Niemier, \$350; Sheehan Brothers, \$369.

Test of a New Fire Plug. The test of a new fire plug with three hose and one engine connection was made last week and it was found to be satisfac-tory. Yesterday the Board of Works in-structed the water company to put in a num-ber of the new plugs in the center of the
